
5. This method of construction requires a low level of skill and can be added once the home is completed.

4. Use an appropriate adhesive. Consult adhesive suppliers.

3. Soldier courses, arches, bull-noses, and random patterns can be achieved using a contrasting brick.

2. The substrate can be fibre-cement, plaster, concrete, etc.

1. 15 - 20mm brick slips may be glued directly to the surface or smooth or textured bricks to form any pattern.
